

The Valley School Class Newsletter
March 2020

Valley School
Curriculum Themes:

- Dr. Seuss
- Dinosaurs & Reptiles
- Earth & Sky
- Outer Space

Alpacas

Alpacas Families

We had such a wonderful February! From our Valentine's Day celebration, our visit from the dentist, the 100th Day of School, Dr. Seuss spirit days and everything in between, it was quite the action-packed month. Hopefully you enjoyed it as much as we did! 😊

We'll get ready, because March is set to be just as exciting! The first week this month will be designated as Dr. Seuss birthday week. We will kick it off with a special birthday party to celebrate his legacy.

We will also be diving in the exciting world of "Reptiles and Dinosaurs"! For our curricular theme, we will be discussing "The Earth & Sky". It's also time for us to [Blast Off](#) as we learn about "Outer Space" too!

*Friendly Reminders: *Please continue to dress for the weather. We do go outside at least twice a day. In addition, please make sure your child has a full set of extra change of clothes in their cubby. Thank You*

As always, if you have any questions or concerns, please feel free to speak to either myself, Ms. Kim or Ms. Lisa, if I am unavailable

Thank you! Miss Molly
