Lambs

Valley School Curriculum Themes:

- Animals & Hibernation
- Winter Weather

January 2021

Lambs Families,

Welcome January! December flew by so fast! We hope you all were safe and sound for the holidays and that you enjoyed your first Christmas with your babies! 😊

In the month of December our little ones enjoyed learning about building constructions through songs and playful activities. Of course, we finished off the month learning about our favorite subject: Holiday Celebrations! It was so much fun singing festive songs, reading holiday stories, and making artwork keepsakes for you from your little ones!

This month our themes are “Winter Weather” and “Animals & Hibernation”. We will focus on the different types of clothing we wear in the winter and all the different activities we can do in the winter season. Then we will look at photo cards of beautiful animals that we can see in the winter months. We will finally learn about the animals that take special long naps during the wintertime, called hibernation. The children will have fun with “Wet & Messy” snow themed activities too!

We also welcomed a new friend this month in our “Lambs” classroom, we are so excited she has come to play and learn with our other students.

Thank you

Sincerely,

Ms. Amaya & Lambs Staff
