## Lambs

---

### Lambs Families,

Welcome to March! We can not believe winter is almost over! February was full of new faces and so much fun. Ms. Melanie was finally able to officially retire and we welcomed Ms. Lynda to the “Piglet” side of the room. We are happy to say that Miss Melanie did agree to be on our substitute list, so we still may see her from time to time. 😊

This past month we learned about “Healthy Foods, Healthy Bodies, Dental Health and the Winter Olympics”. We enjoyed trying a few new foods, fun ways to move and making special footprint art for our Valentine’s Day cards.

This month our focus themes are about “Dinosaurs & Reptiles , Outer Space and celebrating the beloved Dr. Seuss”! To encourage the children to learn about these interesting themes, we’ll be enriching our classroom. They will have fun participating in different types of “wet and messy” sensory experiences. They will listen to silly songs and of course have plenty of Dr. Seuss books to explore. We can’t forget about all the amazing artwork they will have fun doing! Be on the lookout for some wonderful creations!

### *A few reminders:*

*Don’t forget to check your Kids Reports App and your child’s folder for important information as well as artwork to go home.*

Thank You,  
The Lambs Staff

### Valley School Curriculum Themes:

- Dinosaurs
- Outer Space
- Dr. Seuss

---

### Birthdays:

March 5th: Miss Amaya

March 21: Asher

March 30: Samantha
