21st- Last Day of School/Cookout

24th- First Day of Summer Camp

25th- Visitor from Reptile Guys

28th- Water Day

Welcome to summer!

Hopefully this month of June won't be as rainy as May was! The weather when it wasn't raining was beautiful and the children spent many mornings outside on our playground enjoying it. We will keep an eye on sunscreen provided by parents and let you know when your child needs more.

Last month, we said goodbye to Cora and her family. We will definitely miss her hugs and laughter and wish her well! We saw many firsts from our babies in May. Walking and crawling were on the list, as well as trying new foods. The little ones definitely love to try and help each other eat, whether we want them to or not lol! Now that the majority of our babies are toddlers, they move quickly!

This month, we'll try some animal art and read lots of books about farm and zoo animals. We'll also be doing a special project for Father's Day that will be in your child's folder by the door. We'll send messages to remind you to check folders, when we send things home.

Please check out the following links for helpful information.

REMINDERS:

- Please check your child's bin for clothes that are appropriate for the season.
- Water day begins June 28th—We would like them brought in their swimsuits with a change of clothes in a bag. Please bring the following items labeled with your child's name to school : swimsuit, towel and water shoes. (your child does not have to participate) For the babies, we have the sprinkler and water table available.
- ****We DO NOT have baby pools here****
