

The Valley School Class Newsletter

March 2020

Ponies

Pony Families,

This month the Ponies have been so busy that February has come and gone. We enjoyed our “building “study. We learned what buildings are made from, who builds them, and the various types of buildings in our community.

Our dramatic play construction site was a BIG hit! The children really enjoyed playing with the dump truck and tractor that was made from boxes. The children were able to make, decorate, and write their own valentines. They mailed these valentines to their friends in our post office center.

Our valentines party went well, thanks to all the parents who volunteered their time and everyone who donated all the awesome party snacks. The children and their families did a wonderful job decorating the valentine boxes that was made as their family project.

Let’s not forget the Valley School started the “1000 Books by Kindergarten “reading program and started the Lending Library during the month. 😊

We ended this February with a Dr. Seuss theme and will begin March with celebrating his 116th birthday.!

In the month of March, the Ponies will take a break from the Creative Curriculum. We will be focusing on the Valley School’s monthly activity themes. The themes that are being chosen by the centers staff will still provide many learning opportunities for the children. With everything going on in the center, the Ponies teaching staff did not want to take away from all the fun of these themes. We will pick up with our Creative Curriculum studies in the month of April with the theme of “Reduce, Reuse, and Recycle.”

The Valley School themes for March will be the following:

- March 2-6 Celebrating Dr. Seuss (Continued)
- March 9-13 Dinosaurs
- March 16-20 St. Patrick’s Day (17th), Ireland, Rainbows, and Leprechauns
- March 23-27 Outer Space

Family Fun Activity

Goodhousekeeping.com offers some fun family friendly activities for St. Patrick’s Day. Mrs. Shelley’s favorite activity that is mentioned on the website is Planting Shamrocks!

Thank you. The Ponies Staff

Valley School
