Valley School Curriculum

Themes:

- Dinosaurs
- Dr. Seuss
- Outer Space

Rabbits

Rabbits' Families,

February was such a fun month, here at The Valley School. We were able to learn about all the ways to stay healthy by eating right and exercising. Now we are so ready for what learning March will bring!

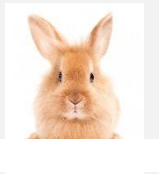

This month's themes in March will be super exciting as we will be discussing "Dinosaurs & Reptiles, Dr. Seuss and Outer Space". Our students will have fun listening to stories and songs about each theme, as well as creating beautiful artworks! We will also be talking about this month's holiday, St. Patrick's Day and incorporate special activities for them to enjoy as well. 🍀

Just a friendly reminder that our school is participating in the wonderful reading initiative "1000 Books Read by Kindergarten". All the books your child listens to at our center counts towards their individual goal. So be sure to check what books are listed on your child's "kid report", as well as checking their Thursday folder for this information too. 😊

Friendly Reminders –

- *Please make sure you child has a complete change of seasonal clothes. Since we do go outside to enjoy the fresh air at least twice a day, weather permitting. You may also like to keep an additional pair of closed toed shoes, in case of any accidents.*

Thank You,

The Rabbits Staff
